Can You Swipe My Offline Templates?

Hey {!firstname},

how's it going?

I've managed to get 4 new offline clients within the last 2 months. Without even trying!

I always offer them an introductory price of \$497 for the first month.

One client is paying me \$1,500 a month.

The best part is that I don't do the hard work.

I haven't created ONE SINGLE backlink for them. I outsourced all the boring tasks for cheap. That way I have time to focus on my own business.

I thought other people would like to know how to do the same.

This Tuesday, 3pm EST, I'm going to reveal my exact 3 step blueprint. You can copy my templates and start Right Away!

This is the Easiest Way that I can think of to get started in the offline niche, by far. Very Actionable!

Mario

Here is what my first customers had to say:

Ben says:

" This WSO is proof that you don't need to wade through pages of fluff to strike gold. In 7 short pages, I got two gems of information that have convinced me once and for all that I can do this! I'm going to go stuff my face with turkey tomorrow and then stuff my pockets with cash Friday using these easy techniques. Great job Mario and thanks a million!"

Derrick says:

"Yet again Mario has completely over-delivered!

Starting out at \$7 (\$7!!!), you get a mercifully brief (have you seen the size of some of the fluff-filled tomes which some "gurus" send out!) report which is perfectly pin-pointed to deliver actionable content which you can begin using right away!

Following Mario's instructions, I looked in my local neighbourhood (Seattle) and there wasn't any positions on the first couple of pages on Craigslist tonight - but I will be checking these pages in future. I never even knew they were there - great find!

Mario then shows you exactly how to stand out from your competitors by using an amazing, FREE tool which will help you to impress your potential clients with detailed reports and these take no more than

a couple of minutes to compile.

As if that wasn't enough, you then get three videos walking you through the whole process, which is a fantastic touch. Often when you merely read a PDF its easy to forget about it, but the visual addition of seeing the process actually working is a great motivating factor!

Thanks Mario!"
